Celebrating!  
**75**  
YEARS

## To Our Valued Customers and Friends:

As we write this letter entering Wittek's 75th year of business, we must first stop and thank each and every one of you for your trust in us throughout the years. Wittek has had unbelievable success in its 75 years, and we owe it all to each and every one of our valued customers and close friends. We are truly lucky to come to work each and every day, surrounded by an amazing team working around the clock to gain your trust with each and every order.

The past six years of our ownership have been nothing short of an incredible experience. When we acquired Wittek, we set out on a mission to take the highest quality course and range supplies to the next level. Throughout the years, we have made several acquisitions in order to serve you with better products, customer service and the best overall ordering experience in the industry. With \$5 million in inventory spread across three locations in the United States, everything you need for the season can be ordered both quickly and easily.

From pickers, washers, and dispensers, to recycled plastic and custom signage for your course and clubhouse, we make it all right here in the U.S.A. Our location in Georgia has the most skilled seamstresses in the industry working around the clock decorating the highest quality golf course flags, as well as custom apparel.

Just as you continue to invest in your property and people, we invest in ours. We're constantly making improvements in order to make more of the products you need, quicker and better than ever before. Again, we truly thank you for your continued business over the years and are looking forward to another exciting year in the world of golf!

Sincerely,  
Gene & Tim Pruban

## ▶ LIGHT ACTIVATED LED BALLS

To activate you shine a strong light source, such as the light from your smartphone camera about 1/2 inch from the printed circle on the ball. Upon sensing the strong light, the computer will automatically turn on the LEDs. Once the LEDs are activated they will continue to emit light until another strong light is sensed. There is no timer inside our LED golf ball, once activated it will stay continuously lit until turned off. ### Why choose us?

- Made in America – With American products.
- Each order is truly custom and treated that way – Each flag is hand cut and hand sewn, based on how YOU order.
- Quicker production times than the competition and a 3 day or less “in transit” to 38 of the 50 United States.
- Multiple locations and multiple product lines with over 50 employees to ensure the same high-quality customer service that you’ve come to expect.

### What makes our flags flag different?

See for yourself:

#### 1/8" Stitch MFS

- Sews tube permanently into flag material
- MFS constructed of darker materials prevents the material around the tube from discoloring

#### Zig Zag Stitch (Zig Zag Stitches)

- Added strength & security on every flag

#### Bar Tack (3/8")

- Extends the life of a flag

#### Bar Tack (3/8")

- Reinforcement of the tube's stitches that attaches it to the flag

#### 1/2" Double Needle Stitches ( Dash Patterned Stitches)

- Resists stretching
- Ensures the flag stitching won't unravel as easy as others do

#### 1/2" Border Tape

- "Frames" the flag
- Strengthens the flag edges and extends the life of the flag

### Mounting Options: Multiple options so you can have the right flag, for the right time!

- Plastic Tube: The same tube you've always used just got better! Now featuring a hexagon shape for added strength, these tubes resist the warping and cracking caused by long term use.
- Soft Tube: Used in place of plastic tubes, they are great for reducing noise on the green and even better for tournaments where the flags from the course may be used as give a ways or trophies following the round! Soft tubed flags are also easily framed.
- 3-Hole Grommet: Below, you'll see a traditional 3-hole grommet strip in comparison to a covered grommet strip. What's the difference? The covered grommet strip features extra fabric that wraps around the exterior of the traditional grommet strip to add a slightly more "modern" look to the timeless classic. This allows for material flag saver to be added! Grommet flags make for excellent trophy or souvenir flags as well!
- Tubeless: The perfect flag for pro shop, trophy or award flags!

### Material Flag Saver (MFS): Our MFS not only adds a unique feature to your flags, but it extends the life of a flag by blocking & hiding the dirt that can accumulate from months of use on the course!

- Nylon Material Flag Saver: Available in all our stock fabrics and colors.
  - Simply add FPTM-Color to your order! Colors available: Augusta (AUG), Black (BLK), Custom (CUSTOM), Maroon (MRN), Navy (Navy), Red (RED).
- Reflective Material Flag Saver: Our reflective material flag saver works great with range finders and is a great alternative to the traditional reflectors added into or on top of the flagstick! Made from the same industrial material used on safety vests and jackets.
  - Simply add FPRTM to your order!
- Vinyl Material Flag Saver: Specially formulated to resist fading from sun exposure and resist bacteria growth!
  - Simply add FPVTM-Color to your order! Colors available: Black (BLK), Green (GRN), Clear (CLR), Red (RED), Royal (RYL), White (WHT), Yellow (YLW).

- Standard Hem: Constructed with double needle and zig zag stitching along with extra tack strips to ensure a longer life for your flags!
  - Our standard hem comes standard on all of our flags, unless you tell us differently!
- Merrow Border: Constructed of special, tightly-sewn thread adding durability to your flag while also adding a contrasting feature to compliment your logo
  - Simply add FPRTM to your order!
- Border Tape: Available in all of our standard fabrics and colors for a more attractive appearance and a reinforced border with the same double needle, zig zag and tack strip stitching!
